Student Research Grants (SRG) Application – 2024 Part 2 of 3: Application

Applicant Information

Ms. / Mr. _____
Last (Family) First Name Middle Initial

US Citizen? Yes No SEG Student Member ID _____ Membership Expires 12/31/ _____

Nationality _____ University Country _____

Complete Mailing Address:

Applicant's E-Mail (Required): _____

Check appropriate year listed below:

M.Sc. Candidate—Year 1st 2nd

Ph.D. Candidate—Year 1st 2nd 3rd of a 3 yr. 4 yr. 5 yr. program
(research projects beyond year 3 Ph.D. not funded)

Other (specify) _____

Expected completion date _____ University or institution _____

If a previous SEG grantee: Check here **Attach** a one page report summarizing results obtained for each award received.

List below which award(s), year(s) and amount(s):

Please respond to items 1–6, 8 and 10 in the space provided; extra sheet must be used for item 7 and may be used for item 9.

1. A. Project or Thesis Title: _____

B. Project Supervisor(s) or Thesis Advisor(s): _____

2. Concisely and clearly state objectives of the project. Is it a mapping, descriptive or a topical study? Give geographical location and mining district or ore field. If primarily a laboratory study, provide detailed information on research that establishes the geologic context of any samples or other data to be studied.

3. Why is this work important to economic geology: Place project in a regional or disciplinary context. This is the place to convince us that your project should be funded.

4. Plan of procedure and expected duration of investigation, be specific (How and when do you propose to do it?). Include specifics on location and size of area to be mapped or studied, objective of the field study, whether you have required permission to work on the property, and other relevant information. If samples or data collected by others are to be part of the proposed study, their provenance should be explained in detail, or the reason for not doing so, should be clearly justified. Is your project part of a larger ongoing research program?

5. **Budget**

Itemize your estimate in detail, clearly indicate items funded by a mining company or other sources.

(Note: U.S. law prohibits us from granting more funds than requested.)

	US\$		
Expense Category	Cost	Other Funding	Amount Requested
Totals	\$ _____	\$ _____	\$ _____

Total budget amount (US\$) _____

Amount requested (US\$) _____

6. Amount and nature of other available funds, facilities, materials, including support, resources or employment from exploration or mining company. This is your opportunity to justify additional funds to supplement those already available to you.

7. If you are a student from a Latin American country and are requesting financial support for bona fide non-research expenses to enable or facilitate your attendance at a university in the U.S.A. or Canada, please check here and provide a separate, one-page letter that describes the costs and justifies the request.

8. Brief biographical sketch including educational and work history.

9. Brief bibliography (additional sheet may be used).

(a) List papers which are related to the proposed research:

(b) Your own publications:

10. Other comments:

_____ Signature of Applicant*	_____ Date
_____ Printed Name of Applicant	
_____ Printed Name of Thesis Advisor	_____ Advisor's E-mail

[Click for Adobe electronic signature instructions](#)

****Signature required!* Electronic signatures accepted, however if you do not have or cannot attain one, please print this page, manually sign, then scan/email or fax as a separate page with the electronic version of the application.**

Signature of Thesis Advisor on the Appraisal of Applicant (Part 3) verifies research project of the applicant has academic advice and acceptance. The advisor agrees to make reasonable effort to over see proper use of granted funds.

Completed applications must be received *on or before* February 15, 2024 to be considered for review. See Instructions (Part 1) for submission details.
